

MASTERGRAIN™

REDEFINE YOUR DOOR

Sia

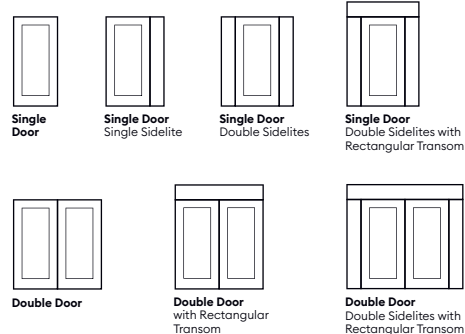

CONTEMPORARY OAK ENGRAVED

Embrace the resurgence of oak with this innovative addition to the already extensive woodgrain product line from MASTERGRAIN™. Sia was designed to elevate your entryway with both timeless sophistication and modern design.

Crafted with precision and elegance, this fiberglass door panel embodies the timeless allure of oak while also offering limitless customization possibilities. Pictured here with an engraved geometric pattern, this panel can also be used with stainless steel inlays, allowing for seamless integration into any architectural vision.
